Friday 13 March 2026

Welcome to the March edition of our newsletter! We're excited to share valuable insights, updates, and safety tips to keep you informed and up to date.

PROJECT UPDATES

Our latest project at Cooby Dam near Toowoomba is now underway, with the team on site for approximately five weeks delivering the works.

We've also commenced a smaller project on the Warrego Highway for Roadtek, with the crew scheduled to be on site for around a week.

REMINDER

The red cement pallets labeled **LOSCAM** are to be kept in the yard and returned to Wagners with each new delivery.

Please ensure they are kept in good condition, as we will now be charged for any damaged pallets.

If a delivery arrives and the pallets are damaged, please take photos and send them through.

Happy Birthday

A big shout-out to our March celebrators!
We hope you have a great day!

SAFETY TIP OF THE DAY

HOUSEKEEPING ON SITE

Good housekeeping helps prevent accidents and keeps the worksite safe for everyone.

Keep Walkways Clear: Make sure tools, materials, and equipment aren't left in walkways or work areas.

Clean As You Go: Don't let rubbish, offcuts, or packaging build up during the day.

Store Tools Properly: Return tools and equipment to their designated storage areas when not in use.

Watch for Hazards: Spills, loose materials, and clutter can quickly become trip hazards.

The Risk: Poor housekeeping can lead to slips, trips, falls, and injuries.

A clean site = a safe site. 🚧
